

The Learning Tree Celebrates 45 years of Service to our Winter Park Community and Surrounding Areas

The Learning Tree, a Ministry of First Baptist Church of Winter Park, was founded in 1972 by a group of church members in need of childcare services. During that time, a need was growing for full-time childcare because of more mothers returning to the work force. In 1975, the church proclaimed that by the recommendation from its body of Deacons, this Ministry shall be continued with the full support of the church.

After 45 years, The Learning Tree remains a very vital Ministry of First Baptist Church of Winter Park. We are continually blessed with the care and teaching of God's children. Each day of the week the facilities continue to provide a loving, safe, and stimulating environment for each family that enters its doors.

As we travel through the future here at The Learning Tree, I see us moving forward providing spiritual and academic experiences for the children from infants through our Pre-K 4's and beyond. We will continue to partner with our parents helping their child become a well-rounded individual, spiritually, socially, emotionally, physically and academically.

We thank all of our families in the past, present day, and future for the opportunity of allowing The Learning Tree to be a part of the life of the most precious gift God has given to them – their child.
